

Amarena

Specifications

Crop

Beetroot

Market Segment

Babyleaf

Features

- Very dark red Bulls Blood beet
- Maintains colour in hot weather
- Leaf colour will not bleed
- Uniform and upright
- Year-round babyleaf production

Description:

AMARENA is a Bulls Blood beet which maintains a very dark red colour in both stem and leaf even in hot weather, when other varieties may have an issue in expressing a full red colour. AMARENA is a uniform, upright variety for year-round babyleaf production and will not bleed into salad mixes, maintaining the integrity of the mix.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds cannot accept any liability as to the accuracy of this information. **NOVEMBER 2019.** ACN 002 887 256
