

Elizium

Specifications

Crop

Lettuce

Market Segment

Cos - Little Gem

Disease Resistance

High Resistance: BL:1-35, Nr:0

Intermediate Resistance: LMV:1

Features

- Excellent uniformity
- Dark green, semi-savoy leaf
- Crisp leaf texture
- Very good tipburn tolerance

Specifications

Description:

ELIZIUM is a glossy, dark green Little Gem Cos with a crisp leaf texture and medium blister. It has shown very good tipburn tolerance in plantings to date and has excellent uniformity. ELIZIUM is perfect for twin bags and is approx. 15cm average length with medium weight and a u-shaped butt. It has resistance to Downy Mildew (BL).

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
