High Resistance: BL:1-33,35, Nr:0

Features

- Glossy, deep red Coral type
- Slow bolting
- Good uniformity
- Medium round head
- Suited for both leaf and whole head production

Specifications

Description:

LEA is a slow bolting, glossy, dark red Coral type with a flat base and green internal colour. LEA shows good uniformity and has a good round, medium head shape that forms fast all-year round. LEA is suitable for both leaf and whole head production. It has resistance to Downy Mildew (BI) and Currant Lettuce Aphid (Nr).

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
