

# Marletta

## Specifications

### Crop

Capsicum

### Market Segment

High-tech Blocky Red

### Disease Resistance

High Resistance: Tm:0-3

Intermediate Resistance: Ma/Mi/Mj

### Hybrid

Yes

### Features

- Uniform glossy 4 lobed fruit
- Compact open plant
- Suit heated systems

## Specifications

### Description:

MARLETTA is a stronger Veyron type with large fruit size and improved firmness. Suited to heated production, the plant has good vigour with an open habit and has shown good heat tolerance in trials. The high quality fruit are uniform and smooth with dark shiny red colour and average 175-190g in size. MARLETTA sets easily and regularly throughout the plant and has the ability to maintain size throughout the production season.

*For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.*

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
