

# Pixie

## Specifications

### Crop

Lettuce

### Market Segment

Cos - Mini Red

### Disease Resistance

High Resistance: BL:1-35

### Features

- Dark red mini Cos
- Glossy leaf
- Bright green internal
- Medium blister
- Very uniform

## Specifications

### Description:

PIXIE is a very dark red-purple mini Cos which has an upright growth habit, u-shaped butt and very good uniformity. It has shown very good tipburn tolerance in plantings to date, both internally and externally. PIXIE's leaf is glossy with a medium blister and bright green internal. It is a slow growing variety for year-round production and has resistance to Downy Mildew (BL).

*For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.*

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
