

SPS 0502

Specifications

Crop

Tomato

Market Segment

Coloured Cherry

Disease Resistance

Intermediate Resistance: ToMV:2a, Ff

Hybrid

Yes

Features

- Speciality market type
- Attractive rose pink colour
- Deep round shape
- Strong acidic flavour

Specifications

Description:

SPS0502 Cherry tomato has been trialled in South Australian greenhouses over the past few years with good results. The fruit are an attractive deep rose pink colour with a strong acidic flavour, making it ideal for speciality market growers and the restaurant trade. The fruit have a deep round shape, averaging 30mm to 35mm in diameter and are approximately 15 to 20 grams in weight, with good uniformity. The plant is of medium to high vigour with a good setting ability.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
