

# Black Glove 10

**SOUTH PACIFIC SEEDS**  
SINCE 1986

## Specifications

**Crop**  
Spinach

**Market Segment**  
Babyleaf and Bunching

**Disease Resistance**  
High Resistance: Pfs:1-11,15  
Intermediate Resistance: Pfs:12,14

**Hybrid**  
Yes

### Features

- Improved Black Glove selection
- Dark green colour
- Upright plant habit
- Good uniformity
- Suitable for bunching and babyleaf

*For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.*

### Description:

BLACK GLOVE 10 is a dark green and slightly savoyed, vigorous growing spinach. It features an upright plant habit with low lying cotyledons and good uniformity, with even growth. Recommended for sowing in late autumn, winter and early spring, BLACK GLOVE 10 has Downy Mildew (Pfs) resistance and is a market leader for the bunching market and suitable for babyleaf if cut early.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds cannot accept any liability as to the accuracy of this information. JULY 2016. ACN 002 887 256
