

# Early Lockyer White

**SOUTH PACIFIC SEEDS**  
SINCE 1986

## Specifications

Crop  
Onion

Market Segment  
White

### Features

- Extra early maturing white onion
- Medium sized white globe
- Main use spring onion production

## Specifications

### Description:

EARLY LOCKYER WHITE is an early maturing white onion. Bulbs are selected from local Lockyer Valley crops to maintain shape and quality. With medium sized globes but relatively short storage ability, EARLY LOCKYER WHITE is mainly used for bunching as spring onions, (ie. immature white onions grown slightly out of season to limit bulb size).

*For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.*

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds cannot accept any liability as to the accuracy of this information. **OCTOBER 2015.** ACN 002 887 256
