- Heavy bunches

Specifications

Description:

FALCON is a dark green celery which is suitable for cool season harvest. FALCON is a very uniform tall heavy variety (taller than Hornet). The main season for FALCON is autumn and winter. Not suited for the bolting period.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds cannot accept any liability as to the accuracy of this information. JULY 2016. ACN 002 887 256
