

Icemaker

Specifications

Crop

Lettuce

Market Segment

Iceberg

Disease Resistance

High Resistance: Bl:1-33, Nr:0

Features

- Good uniformity
- Sure heading
- Large round heads
- Good tipburn tolerance
- Mid-late maturing
- Very low internal core

Description:

ICEMAKER is a large, sure heading, mid to dark green Iceberg lettuce with a low internal core, which has shown good tolerance to tipburn in plantings to date. ICEMAKER has a good frame, round uniform heads and is suitable for cool weather production in southern states, for the fresh cut market. It has resistance to Downy Mildew (Bl) and Currant Lettuce Aphid (Nr).

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
