

Jalisco

Specifications

Crop

Chilli Hot

Market Segment

Jalapeno

Disease Resistance

Intermediate Resistance: Xcv:1-3, TMV

Hybrid

Yes

Features

- Large fruit size
- Excellent uniformity and firmness
- High yield potential

Specifications

Description:

JALISCO is slightly larger in size than Sizzler, averaging approx 9cm x 3.5-4cm. The smooth dark green fruit have good firmness and uniformity and have shown excellent tolerance to crazing under most pressure conditions. The plant on JALISCO is strong and upright and has a relatively open habit which offers ease of harvest.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
