

Radar

SOUTH PACIFIC SEEDS
SINCE 1986

Specifications

Crop

Radish

Market Segment

Round Red

Features

- Very uniform radish
- Suited for warm season harvest
- Attractive round roots with a fine tap root
- Strong foliage, ideal for bunching

Specifications

Description:

RADAR is a very uniform radish for mild to warm season harvest. This variety produces attractive round roots with a fine tap root. The strong foliage is ideal for bunching. The roots are slow to develop pithiness.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds cannot accept any liability as to the accuracy of this information. JULY 2016. ACN 002 887 256
