Lettuce

Market Segment

Iceberg

Disease Resistance

High Resistance: Bl:1-33

Features

- Larger Roundhouse type
- Uniform round head shape
- Dark green colour and good weight
- Large frame with upright habit

Description:

RONODINLA is a larger Roundhouse type with uniform, round, heavy heads and sure head formation. RONODINLA is slightly larger than Roundhouse but smaller than Icehouse 2 and is suggested for spring/autumn production in southern areas, and winter in milder Qld areas. The variety has a large frame with upright habit and attractive dark green colour. It has resistance to Downy Mildew (Bl).

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
