

# Sweet Delight

**SOUTH PACIFIC SEEDS**  
SINCE 1986

## Specifications

### Crop

Melon

### Market Segment

Green Flesh Small

### Disease Resistance

High Resistance: Fom:0,2

Intermediate Resistance: Px:1

### Hybrid

Yes

### Features

- Smooth clean skin
- Tolerant to netting
- Good flesh colour and high sugar levels
- Tight cavity with good shipping quality
- Suit warm season slot

### Description:

The replacement for Sweet Success, SWEET DELIGHT produces similar sized fruit with smooth clean skin, tight cavity and good fresh flavour. The small medium sized fruit average approx. 15-17cm x 13-15cm, with rounded oval shape and attractive green flesh. SWEET DELIGHT has shown high sugar levels alongside standard varieties in trials to date, with good shipping qualities. Relatively early to mature with a high yielding but only moderately vigorous plant, SWEET DELIGHT is recommended for planting in the warm season slot.

*For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.*

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
