Specifications

Crop

Cucumber

Market Segment

Greenhouse Continental

Disease Resistance

High Resistance: Cca, Ccu

Intermediate Resistance: CVYV

Hybrid

Yes

Features

- Strong but manageable plant
- Excellent setting ability
- Very dark green colour
- Good shelf life
- Proven under high temp conditions

Specifications

Description:

VANCOUVER is a proven variety for summer production offering high fruit yield and excellent setting ability under high light intensity and high temperature conditions. The plant is strong and vigorous but remains relatively compact in nature. VANCOUVER has the ability to maintain very dark green colour and excellent fruit set under warmer conditions with very good uniformity and shape. The fruit are approximately 32-34cm in length with good shelf life.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
