

# Aria

**SOUTH PACIFIC SEEDS**  
SINCE 1986

## Crop

Lettuce

## Market Segment

Iceberg

## Disease Resistance

High Resistance: Bl:16-27, 29, 32

## Hybrid

No

## Features

- Early-mid maturing
- Cool season variety
- Dark green
- Uniform, round heads
- Good bolting tolerance

## Description

ARIA is a cool season variety for spring harvest with large, dark green, round heads. It is early-mid maturing and has shown very good uniformity and tipburn tolerance in plantings to date. ARIA is sure heading with a medium-large frame, providing nice protection to the head. ARIA has also shown to have good bolting tolerance under variable spring conditions and has resistance to Downy Mildew (Bl).

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds cannot accept any liability as to the accuracy of this information. FEBRUARY 2022. ACN 002 887 256
