

Adventure

Crop

Cauliflower

Hybrid

Yes

Features

- Versatile variety
- Strong, upright frame
- Well covered with smooth white curds

Description

ADVENTURE is a versatile variety with a 14-16 week maturity. The strong upright frame produces well covered smooth white curds. ADVENTURE is recommended for harvesting in winter/early spring in Qld and spring/early summer in cooler production areas of WA.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
