

Ajihei

Crop

Squash

Market Segment

Kabocha

Hybrid

Yes

Features

- Export squash variety
- 1.5-2.0kg fruit weight
- Dry type (hoku hoku)
- Suit main season production

Description

AJIHEI is a Kabocha squash variety for export to Japan and Korea. The moderately vigorous vine is better suited to main season production when the sowing temperatures are slightly warmer. AJIHEI is a premium quality fruit with a dark green skin and highly uniform fruit in regards to size and shape. Sought after in the Japanese market for its very dry texture and nutty flavour, AJIHEI also has a high Brix value.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
