

Ajihei

SOUTH PACIFIC SEEDS
SINCE 1986

Crop

Squash

Market Segment

Kabocha

Hybrid

Yes

Features

- Export squash variety
- 1.5-2.0kg fruit weight
- Dry type (hoku hoku)
- Suit main season production

Description

AJIHEI is a Kabocha squash variety for export to Japan and Korea. The moderately vigorous vine is better suited to main season production when the sowing temperatures are slightly warmer. AJIHEI is a premium quality fruit with a dark green skin and highly uniform fruit in regards to size and shape. Sought after in the Japanese market for its very dry texture and nutty flavour, AJIHEI also has a high Brix value.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
