Herb

Market Segment

Coriander

Hybrid

Yes

Features

- Vigorous and high yielding
- Slow bolting
- Large, flat, glossy leaf
- Dark green
- Tall, open plant

Description

ALLEGRO is a vigorous, dark green, tall and open coriander plant with a broad, large flat leaf. With a traditional coriander flavour and scent, ALLEGRO is also slow bolting and offers high yield. Harvest 35-40 days after sowing.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds cannot accept any liability as to the accuracy of this information. **SEPTEMBER 2020.** ACN 002 887 256
