

# Apollonia

## Crop

Zucchini

## Market Segment

Dark Green

## Hybrid

Yes

## Disease Resistance

Intermediate Resistance: PRSV, WMV, ZYMV, Px

## Features

- Easy to pick high quality fruit
- Strong upright plant habit
- Good disease package
- Suited to cool weather production

## Description

APOLLONIA is an Enzo type zucchini best suited to cooler weather production, producing tidy dark green cylindrical fruit with good uniformity and quality. APOLLONIA features a strong plant with good levels of resistance to multiple viruses and Powdery Mildew (Px). APOLLONIA can be slightly later to harvest but has good overall endurance with high yield potential even under cool conditions.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds cannot accept any liability as to the accuracy of this information. SEPTEMBER 2020. ACN 002 887 256
