

Austin

Crop

Cucumber

Market Segment

Greenhouse Lebanese

Hybrid

Yes

Disease Resistance

High Resistance: Ccu

Intermediate Resistance: Px

Features

- Single to semi-multi fruited type
- 17-18cm average fruit length
- Dark green mid ribbed skin
- Excellent uniformity
- Strong plant, widely adaptable
- Suit autumn winter production

Description

AUSTIN has good cool weather tolerance performing well in both heated and unheated greenhouses and is suitable for autumn and winter production. In cooler conditions the variety is mainly single fruited. In milder conditions however, AUSTIN sometimes gives an extra fruit per internode. The fruit are straight, mid ribbed, averaging 17-18cm in length and have a dark green colour.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds cannot accept any liability as to the accuracy of this information. SEPTEMBER 2020. ACN 002 887 256
