

Ballistic

Crop

Tomato

Market Segment

Large Beef >180g

Hybrid

Yes

Disease Resistance

Intermediate Resistance: Fol:1,2 (US), For, N, Pf, TMV, TSWV, Va

Features

- Powerful plant in soil or substrate
- Vigorous with good setting
- Firm fruit with uniform shoulders

Description

BALLISTIC is a powerful and vigorous plant which produces large flat-round fruit with an average fruit weight of 190g. BALLISTIC fruit are firm, with uniform shoulders, and good colour at red. It has performed extremely well in soil and substrate plantings in the main markets of Sydney and Adelaide, with good setting ability well up the plant and very good uniformity for the loose pick market. BALLISTIC averages five fruit per truss with a firm attachment and carries a good disease resistance package.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
