

Barteza

Crop

Tomato

Market Segment

Large Beef >180g

Hybrid

Yes

Disease Resistance

High Resistance: Va, Vd, Fol:0,1(EU), ToMV:0,2, Pf:1-5, For, ToANV

Intermediate Resistance: Ma/Mi/Mj, On

Features

- Attractive glossy red beef type 240-280 grams
- Suited to loose-pick hydroponic production
- Balanced easy-care plant producing extra large fruit
- High tolerance to Torradovirus
- Excellent deep red fruit with good firmness and shelf life

Description

BARTEZA is a large loose-pick gourmet variety suited to long term hydroponic production. BARTEZA has an attractive large, deep round fruit with an avg. fruit weight of 250 grams (when the cluster is pruned to 4 fruit). BARTEZA has shown exceptional setting, yield and fruit uniformity throughout the crop while maintaining a balanced plant throughout the season. In plantings to date BARTEZA has shown good field tolerance to Torradovirus (ToANV).

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
