

Boris

SOUTH PACIFIC SEEDS
SINCE 1986

Crop

Cauliflower

Hybrid

Yes

Features

- Self-covering
- Medium to large frame
- Very white curds
- Good cover
- Suit spring, mild summer and autumn harvest

Description

BORIS is a versatile and self-covering cauliflower with 11-12 weeks maturity for spring, mild summer and autumn harvest. BORIS has a medium to large frame offering good curd cover, with dome-shaped heads and excellent curd colour and quality.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
