Features

- Winter/spring harvest type
- Exceptional weight and quality
- Medium small bead
- Good colour
- Suit high density planting

Description

BRAVO is a winter/spring harvest variety with a vigorous upright plant habit, thick stem, small to medium bead and well domed head, featuring exceptional weight and quality. BRAVO is suited to higher density planting and is later maturing (90-95 days from transplant).

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
