

Clarence

Crop

Rocket - Wild

Crop type

Babyleaf

Hybrid

No

Features

- Dark green, fine leaf with great serration
- Upright growth habit
- Great peppery flavour
- Warm season production

Disease Resistances:

Intermediate Resistance: Hp

Description

CLARENCE is a dark green Wild rocket for warm season production, with a tall and upright growth habit of fine leaves with great serration. CLARENCE has a good peppery/spicy flavour and makes a great addition to mixed salad bags with its appearance, texture and flavour. CLARENCE has some resistance to Downy Mildew (Hp).

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
