

Congo

SOUTH PACIFIC SEEDS
SINCE 1986

Crop

Zucchini

Market Segment

Dark Green

Hybrid

Yes

Features

- High yielding
- Strong but open bush
- Good vigour with 'easy pick' qualities
- Blocky cylindrical fruit
- Uniform glossy dark green colour
- Small tidy blossom end
- Warm season production

Description

CONGO is one of the highest yielding varieties currently on the market and is a popular variety for warm season production. The strong plant features an open but vigorous habit and offers good fruit protection with an 'easy harvest' ability. A blocky fruit type with uniform dark green glossy colour and a small tidy blossom end.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
