

Countryside

Crop

Spinach

Market Segment

Babyleaf

Hybrid

Yes

Disease Resistance

High Resistance: Pe:1-12, 14-16

Features

- Dark green babyleaf spinach
- Upright growth habit with very good uniformity
- Slightly cupped, oval shape leaf
- High yielding for shoulder season production

Description

COUNTRYSIDE is an attractive dark green babyleaf spinach for shoulder season production, which has an upright growth habit allowing for easy harvest. COUNTRYSIDE leaf is flat with a slight cupping and is beautifully uniform with an oval shape. It has outstanding yield potential due its thick leaf. COUNTRYSIDE has some resistance to Downy Mildew (Pe).

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
