Intermediate Resistance: Co:1, Fon:1

Features

- Mid to early maturing seeded All Sweet type
- Sweet flavour and small pip size
- Attractive skin colour with crisp deep red flesh
- Large oblong fruit with good tolerance to hollowing
- Popular pollinator for seedless production

Description

DAREDEVIL is a mid to early maturing diploid All Sweet in the Red Tiger class. The oblong fruit have good length averaging 36-38cm x 20cm with consistent size and shape under tough conditions. The fruit have good external colour with an attractive dark stripe, crisp deep red flesh, sweet flavour and small pip size. Suitable as a pollinator for seedless production, DAREDEVIL shows very good tolerance to hollowing.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
