

Ducati

SOUTH PACIFIC SEEDS
SINCE 1986

Crop

Capsicum

Market Segment

Blocky Red

Hybrid

Yes

Disease Resistance

Intermediate Resistance: Xcv:1-3, TSWV

Features

- Exceptional fruit quality
- Great colour and quality under warm conditions
- Excellent pack presentation

Description

DUCATI was selected from extensive trials for its ability to produce quality red fruit while ripening under warm spring and summer conditions. The large blocky fruit average approx. 10x9cm and have a smooth skin texture and more rounded shoulder giving excellent presentation in patterned pack or bulk fill boxes. DUCATI has shown exceptional fruit quality even under difficult winter/spring growing conditions. DUCATI has a strong plant type, a striking red colour, exceptional firmness and thick walls. Intermediate resistance to Bacterial Spot and Tomato Spotted Wilt Virus.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds cannot accept any liability as to the accuracy of this information. **SEPTEMBER 2020.** ACN 002 887 256
