

Enzo

SOUTH PACIFIC SEEDS
SINCE 1986

Crop

Zucchini

Market Segment

Dark Green

Hybrid

Yes

Disease Resistance

Intermediate Resistance: PRSV, WMV, ZYMV, Px

Features

- Excellent disease package
- Strong high yielding plant
- Dark green fruit
- Cylindrical shape
- Extended harvest potential

Description

ENZO is a sister line to Nitro with the same high quality but a slightly taller plant habit. ENZO offers the same yield and improved disease package with resistance to multiple viruses as well as Powdery Mildew (Px). The fruit are dark green in colour with an attractive slightly tapered shape and small tidy blossom scar.

Cultural Notes: It is recommended that standard spray programs be maintained to help lessen the effects of disease carrying insects, and to further enhance virus resistance.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds cannot accept any liability as to the accuracy of this information. SEPTEMBER 2020. ACN 002 887 256
