

Falkis

Crop

Cauliflower

Market Segment

Fresh Market

Hybrid

Yes

Features

- Heavy, smooth white curds
- Medium upright frame
- Strong internal wrap
- Good uniformity
- Mid-late maturity

Description

FALKIS is an exceptional shoulder season variety in south-eastern Australia, and can also be utilised for harvest north of Perth during winter and south of Perth during spring. FALKIS has a strong internal wrap with very uniform dome heads and smooth, heavy white curds. It has a medium, upright frame with a 90-95 day maturity.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
