

# Flavoursome

## Crop

Tomato

## Market Segment

Speciality - Grape

## Hybrid

Yes

## Disease Resistance

High Resistance: Pf:1-5

Intermediate Resistance: ToMV:0-2, Ma/Mi/Mj

## Features

- Red snacking grape for truss or loose pick
- Sweet and crunchy with a long shelf life
- Vigorous and powerful plant
- Approx. 12 fruit per truss

## Description

FLAVOURSOME is a red grape variety for truss or loose pick harvest with sweet and crunchy fruit (Brix 9.5) produced on a plant that is cool and low light tolerant. The fishbone truss holds approx. 12 fruit with an average weight of 14g which has shown to have a long shelf life in trials to date. FLAVOURSOME is preferred to be grown in coconut mat or rockwool substrate with a strong rootstock and has resistances to Leaf Mould (Pf), Nematodes (N) and Tomato Mosaic Virus (ToMV). FLAVOURSOME can be used as a snacking or culinary tomato.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds cannot accept any liability as to the accuracy of this information. MARCH 2022. ACN 002 887 256
