

Granada

Crop

Radish

Market Segment

Round Red

Hybrid

Yes

Features

- Red, round, uniform radish
- Good colour and bunch weight
- High yielding and vigorous

Description

GRANADA is a red, globe-shaped radish with very good uniformity, medium root size and medium top attachments. GRANADA has shown good tolerance to splitting and disease in plantings to date, and is firm with nil pithiness. GRANADA is high yielding and vigorous with a good bunch weight.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
