

Grappo

Crop

Tomato

Market Segment

Grape Coloured

Hybrid

Yes

Disease Resistance

Intermediate Resistance: Fol:1(US), N

Features

- Speciality large orange truss grape
- Oblong fruit shape with good colour & flavour
- High yield potential

Description

GRAPPO is an indeterminate speciality orange truss grape type for field production. Produces high yields of large oblong shaped fruit with bright orange colour, good firmness and flavour. GRAPPO has very good shelf life and has shown good tolerance to marking in trials to date.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
