

Gwendis

SOUTH PACIFIC SEEDS
SINCE 1986

Crop

Cauliflower

Hybrid

Yes

Features

- Large frame and good wrap
- Smooth, white curds
- Dome-shaped heads
- Slow maturing
- Cool season variety, 18-19 weeks maturity

Description

GWENDIS is a large-framed cauliflower with smooth, white curds and good wrap with a domed head shape. GWENDIS is suitable for harvest in cooler periods with an 18-19 week maturity, and has shown very good tolerance to disease in plantings to date.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
