

# Hustler

## Crop

Capsicum

## Market Segment

Sweet Wax Banana

## Hybrid

Yes

## Disease Resistance

Intermediate Resistance: TSWV, TMV

## Features

- TSWV tolerant sweet yellow wax
- Straight shape with medium thick walls
- Good tolerance to skin marking
- High yield potential with upright plant habit

## Description

The fruit of this sweet yellow wax type average 20-24 x 4-5 cm with a straight shape and thick walls. The medium tall plant is slightly later to mature with an upright plant habit and good setting ability throughout the plant. HUSTLER has shown good tolerance to markings and offers an excellent option for areas where TSWV is a problem.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
