

Jalisco

SOUTH PACIFIC SEEDS
SINCE 1986

Crop

Chilli Hot

Market Segment

Jalapeno

Hybrid

Yes

Disease Resistance

Intermediate Resistance: Xcv:1-3, TMV

Features

- Large fruit size
- Excellent uniformity and firmness
- High yield potential

Description

JALISCO produces fruit with a size averaging approx. 9 x 3.5-4cm. The smooth, dark green fruit have good firmness and uniformity and have shown excellent tolerance to crazing under most pressure conditions. The plant on JALISCO is strong and upright and has a relatively open habit which offers ease of harvest.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds cannot accept any liability as to the accuracy of this information. SEPTEMBER 2020. ACN 002 887 256
