No

Features

- Fine incised, broad leaf
- Fast-growing
- Upright habit
- Winter and cool weather production
- White inner leaves, self-blanching

Description

JOSEFINA is a fast-growing endive with a fine incised, broad leaf. The white inner leaves are self-blanching. JOSEFINA has an upright growth habit with good head volume and weight for winter and cool weather production.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds cannot accept any liability as to the accuracy of this information. **SEPTEMBER 2020.** ACN 002 887 256
