Features

- Nantes x Kuroda type
- Medium length
- Smooth and uniform
- Dark colour with strong tops

Description

MARCO is a Nantes x Kuroda variety of medium length with a tapered shape. MARCO is dark orange in colour, with a smooth texture and excellent uniformity. It is suitable for harvest late summer, autumn and early winter. It has resistance to Alternaria Leaf Blight (Ad) and Powdery Mildew (Eh).

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
