Carrot

Market Segment

Nantes

Hybrid

Yes

Disease Resistance

High Resistance: Ad, Eh

Features

- Large, tapered Nantes
- Smooth, uniform roots
- Excellent colour with upright, medium top
- Strong attachment
- Good yield

Description

MITCHELLO is a large, tapered Nantes carrot with good uniformity and smoothness. Suitable for main season harvest in Qld, WA and Tas, MITCHELLO has an upright, medium top and strong attachment with roots displaying excellent dark external and internal colour. MITCHELLO also offers a consistently good yield and resistances to Alternaria Leaf Blight (Ad) and Powdery Mildew (Eh).

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
