

Oscar

SOUTH PACIFIC SEEDS
SINCE 1986

Crop

Cucumber

Market Segment

Greenhouse Lebanese

Hybrid

Yes

Disease Resistance

Intermediate Resistance: CMV, CVYV, Px, Pcu, ZYMV

Features

- Multi-fruited for summer production
- Open plant habit for ease of harvest
- Uniform attractive dark green fruit
- High quality and yield
- Substrate and soil production

Description

OSCAR is a multi-fruited variety for summer harvest offering very even setting throughout the plant under warm conditions. The plant has a compact but open habit for ease of harvest with short laterals that require minimal pruning and a high yield potential. The fruit of OSCAR are high quality with an attractive uniform shape, averaging 17-18cm with long stem attachment, moderate rib and dark fruit colour. OSCAR performs well in both substrate and soil environments.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds cannot accept any liability as to the accuracy of this information. SEPTEMBER 2020. ACN 002 887 256
