Yes

Features

- Good uniformity
- Good head weight
- Blue-green colour, non-purpling type
- Firm holding
- Later maturing

Description

OVERLAND is a firm holding, cool season variety with good head weight and a blue-green colour bead. It is a later maturing Aurora type with better cold tolerance at maturity, low set dome-shaped heads and medium bead. OVERLAND shows good uniformity at maturity, is non-purpling and has good tolerance to Hollow Stem. There may be some blindness issues in certain cool-cold locations from a late winter/spring transplant.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds cannot accept any liability as to the accuracy of this information. DECEMBER 2021. ACN 002 887 256
