Onion

Market Segment

Bunching

Hybrid

No

Features

- Market leading Straightleaf type
- High quality, even under adverse conditions
- Superior vigour in winter
- Dark blue-green leaves

Description

PARAGON is a proven and superior Straightleaf type which has become the market leader across Australia. Vigorous dark blue-green leaves and long white stems remain high quality, even under adverse conditions. Suitable for year-round production in temperate climates with the advantage of it growing well through winter due to its superior vigour.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location. As a consequence South Pacific Seeds cannot accept any liability as to the accuracy of this information. SEPTEMBER 2020. ACN 002 887 256
