

Pixie

Crop

Lettuce

Market Segment

Cos - Mini Red

Hybrid

Yes

Disease Resistance

High Resistance: Bl:16-19,21-25,28-30,32

Features

- Dark red mini Cos
- Glossy leaf
- Bright green internal
- Medium blister
- Very uniform

Description

PIXIE is a very dark red-purple mini Cos which has an upright growth habit, u-shaped butt and very good uniformity. It has shown very good tipburn tolerance in plantings to date, both internally and externally. PIXIE's leaf is glossy with a medium blister and bright green internal. It is a slow growing variety for year-round production and has resistance to Downy Mildew (Bl).

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
