

Purple Prince

SOUTH PACIFIC SEEDS
SINCE 1986

Crop

Asian Herb

Market Segment

Babyleaf - Mustard

Hybrid

No

Features

- Deep purple, glossy mizuna
- Green underside of leaf with purple veins
- Thick, serrated, 3D leaf with bright green stem
- Bolting tolerance for year-round production

Description

PURPLE PRINCE is an attractive deep purple, glossy mizuna which is green on the underside of the leaf with a bright green stem and purple veins. It has good vigour and uniformity and is high yielding. The leaf is serrated and reasonably thick, offering good shelf life. It has shown good bolting tolerance in plantings to date and is suitable for year-round production.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
