

Rozee

Crop

Lettuce

Market Segment

Multileaf - Red

Hybrid

No

Disease Resistance

High Resistance: Bl:16-29,31-33,35

Features

- Red-brown Coral
- Bright green internal
- Medium textured spikey leaf and fine attachment
- Uniform, medium-sized heads
- Good yield and tipburn tolerance

Description

ROZEE is a red-tipped Coral lettuce with medium-sized heads producing a broad, spikey leaf and bright green internal. It has shown good tipburn tolerance in plantings to date and produces a very good yield to fill out salad bags. ROZEE is uniform in maturity and has a fine attachment for easy harvest all-year round. It has resistance to Downy Mildew (Bl).

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
