Sofia

SOUTH PACIFIC SEEDS
SINCE 1986

Crop
Tomato

Market Segment
Medium Beef 160-180g

Hybrid
Yes

Disease Resistance
Intermediate Resistance: Va, Fol:1-2(US), TMV, TSWV:5, TYLCV, N

Features
- Attractive glossy red colour
- Nice quality fruit with tidy shoulder
- Excellent firmness and shelf life
- Good power and setting
- Strong disease package

Description

SOFIA is a medium-large fruited variety suitable for year-round production for the loose pick market. It has a strong plant with plenty of power but good internode length, setting close to the ground with a minimum of 7 trusses to the wire. SOFIA has uniform fruit, with excellent colour and firmness. The fruit have an attractive shape, glossy appearance, and tidy shoulder. The disease package of SOFIA includes intermediate resistance to TSWV, TMV, TYLCV and nematodes.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
