

Stella

Crop

Lettuce

Crop type

Red Oak

Hybrid

No

Features

- Vigorous dark red Oak leaf
- Fine stem attachment
- Uniform, 3D glossy leaf
- Year-round production

Disease Resistance:

High Resistance: Bl:16-33

Description

STELLA is a vigorous dark red Oak leaf variety for baby leaf production. STELLA's medium thick leaf is very lightly frilled and serrated, and goes from a triple red to a light green down to the fine stem attachment. STELLA has an upright growth habit, and produces a good yield of uniform and glossy, 3D curled leaves to give volume and colour for mixed bags. STELLA is suitable for year-round production with good Downy Mildew (Bl) resistance, and has shown good tipburn tolerance in plantings to date.

For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
